ImpactBridge – NGO Connect Platform

Developed a web-based prototype platform connecting donors, NGOs, and grassroots organizations across India to improve social impact collaboration.

Designed transparency-focused features such as verified NGO profiles, trust indicators, and compliance tracking.

Built an NGO Need Index to identify urgent causes, funding gaps, and underserved regions for smarter resource allocation.

Enabled collaboration through shared resources, campaign partnerships, and cross-organization networking.

Focused on creating a scalable, user-friendly interface with modern UI/UX principles for accessibility and engagement.

SmartHire – Smart Hiring Platform

Developed a prototype platform for student internships and job matching

Created swipe-based interaction for applying and recruiting

Implemented candidate filtering, match scoring, and fake resume preview

Focused on improving user experience and reducing irrelevant applications
